

# THE DANCER'S POINTE

## From the Director:

Our pink-out week and “Halloween Hair” contest were a huge success. Great job to all the dancers that participated.

We are in full swing preparing for our “Merry and Bright” winter recital. Make sure your dancers are listening to their music often. The more familiar dancers are with the music the easier it is to remember choreography. Videos may be taken during watch week to help with perfecting choreography and placement. Practice at home is a critical part of student success.

Our winter program on Dec 14th will be held at First Baptist Church Umatilla. Below is the schedule for show participation. This schedule gives you the details for what show your dancer(s) will perform. Coming soon will be a description of what will be worn for the performance. Many costume items will be provided by the studio and there will be some instances where families will supply accessories and other costume elements.

Check this out... The 49th family that emails with the correct date and time for our winter recital wins a Dance Depot drawstring backpack.

## INTENTIONAL

As we prepare for our winter recital, the staff at Dance Depot encourage every dancer to be intentional about rehearsing their choreography. For the best performance, dancers must build muscle memory for the order of their steps and familiarity with the rhythm and timing of the music.

"When your intentions are pure, so too will be your success" -Charles F. Glassman
